

LEADERS IN MOBILE EVENT EQUIPMENT

ABOUT EVENT EQUIPMENT HIRE

Event Equipment Hire are the UK's leading supplier of Mobile Event Equipment to small, medium and large events across the country. With a team of over 20 full time staff within the office and out in the field, it is important to us that our clients are always able to speak to a real person.

From our 3 depots around the UK, in Leeds, Leicester and Dumfries we are perfectly positioned to reach every corner of the country with minimal delivery costs to you. Our head office is based in Cleckheaton, West Yorkshire, where our dedicated office team work closely with our customers to ensure that every aspect of the event is covered, offering site visits and office appointments to make sure all t's are crossed and i's dotted.

Beginning in 2004 with Marquees, Event Equipment Hire gradually expanded into the mobile event equipment market with some of the first Mobile Stages in th UK, shortly after we developed and manufactured some of the fastest and brightest mobile LED Screens in the country, with Grandstand seating units being the latest edition to the portfolio. Each one of the 24 different units is delivered, installed and operated by a trained member of the EEH Team. They work

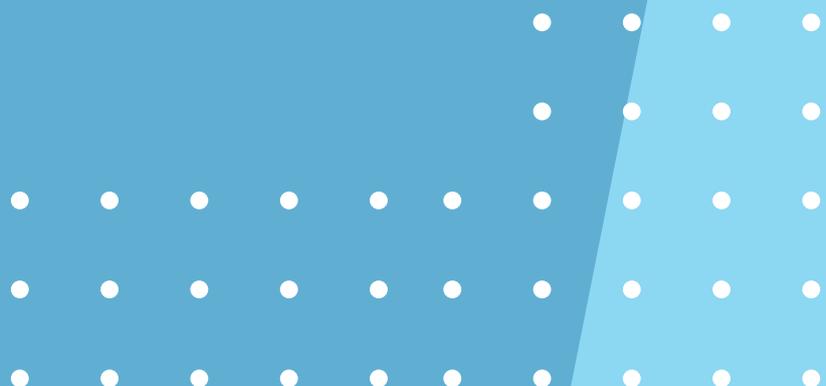

closely with the office team also, integrating all of the facts and information about our clients requirements and needs, to ensure that what is required is delivered to the highest standard.

Leading the office is the sales & customer liaison team who correspond with all our clients, drafting quotations and creating bespoke packages to each individual event. As we all know, no two events are the same! Once this stage is complete, all information is passed through to the installation teams who prepare the equipment for delivery; through a 6 weekly maintenance and repair schedule and regular cleaning to ensure everything arrives in a highly presentable and respectable manor.

We also have a dedicated team of Screen Technicians, Editors and Camera Crew who are available to be on site and capture the magical moments of your event unfolding.

This brochure is a snapshot summary of the equipment and services Event Equipment Hire have to offer. If you have any questions or would like a bespoke quotation creating for your event, just pick up the phone or send us an email, our teams will be more than happy to help you out.

GRANDSTAND SEATING

Grandstands Joined the EEH fleet in 2016 with our 90 and 130 seat small trailer units, in 2018 we acquired the 3 sizes of artic units 150, 160 and 181 seats.

The small trailer units are constructed with aeroplane grade aluminium, the units are lightweight and easily positioned through the use of a 4x4 vehicle into busy cityscapes, inside exhibition venues including Birmingham's NEC and off road alike where many heavy trucks are not permitted.

The Unique engineering behind all of our stands mean these impressive structures can withstand up to 80KM winds, 10cm of snow on the roof and the test of time.

These units can be built within 2 hours meaning you could build an entire Arena in just a morning saving you and your event time and set up costs.

GS⁹⁰ GRANDSTAND

The GS90 is the smallest trailer based grandstand of the fleet.

This stand offers 90 standard covered stadium seats allowing your guests to spectate in comfort. This unit is towed and positioned by 4x4 vehicle and takes approx. 1hr 30 mins to build once in position.

DIMENSIONS OF A STAND*		DIMENSIONS OF A TRAILER*		HIRE RATES	
Width	9.3m	Length	10m	Day Hire	£1250 + VAT
Depth	6.4m	Width	2.5m	Week Hire	£1350 + VAT
Height (front)	5.1m	Height	3.9m		
Height (back)	4.4m	*Minimum required for access.			
*Footprint when in position.					

DETAILS	
Weight	3480kg
Floor Capacity	300kg/m ²
Roof Capacity	50kg
Wind Wall	PVC (B1 Flame Resistant)
Installation Time	From 60 minutes (once in position)
Optional Accessories	Stand Branding

GS¹³⁰ GRANDSTAND

The GS130 is the largest trailer based grandstand of the fleet.

Based on the same design as the smaller GS90 Grandstand unit, this unit offers 130 stadium standard covered seats. Once in position, the Grandstand is operational in just under 2 hours.

DIMENSIONS OF A STAND*

Width	10.3m

LED SCREEN UNITS

EEH Offer a large range of Mobile Led Screens to hire throughout the UK and across Europe, performing exceptionally well in direct sunlight, the screens are ideal for summertime concerts and festivals, outdoor cinemas and even advertising.

Our 12sqm trailer screen is the perfect addition to a festival with 2 positioned at either side of a stage it offers increased viewing for your guests and prime advertising for Event sponsorship.

The one of a kind 18sqm trailer screens are the most compact and the highest resolution mobile screens

in the country. They travel at a total height of 8ft and can fit in to almost anywhere a small car can.

Our 48sqm mobile artic screen is a sight to behold. Delivered on a mini artic trailer it is highly maneuverable and lightweight in comparable to other artic based led screens. This is the perfect screen for an outdoor cinema or Drive in movie screen. It also give any event the WOW factor they are looking for.

EEH also offer affordable and professional vision mixing and camera packages with a team of experienced Live event crew that can make any live event come to life on the big screen. Check out our example packages on page ...

Additional costs will be added to the quotation to cover fuel for the screen generators unless sufficient power can be provided on-site by the client.

MAKE THE MOST OF YOUR BIG SCREEN

At EEH we are able to provide everything you need to put whatever you want onto your screen - ranging from a simple feed input all the way to a fully-featured multi-camera event broadcast.

ONBOARD PLAYOUT

All of our iconic screens come with an onboard switching facility which will allow playout of virtually any feed supplied. These are ideal for most of our customers who just want the screen to playout a single feed of content throughout the event.

This is Suitable for:

- Playing DVD's or digital media (or any other pre made content)
- A terrestrial or satellite television broadcast feed
- A production feed from an onsite production company ie. you already have an outside broadcast team booked

MAKE YOUR MEDIA SOCIAL

EEH screens offer an easy and effective platform for event interaction and we're able to provide a complete solution to our customers:

MODERATED	Avoid any embarrassing episodes with full browser-based content moderation either by EEH staff or your own team.
CUSTOMISABLE BRANDING	Change colours, logos, backdrops to suit your - or your event sponsor's - brand
FLEXIBILITY	Choose from a fullscreen wall or a ticker to go along the top or bottom of your screen - or use both!
COMPLETELY SOCIAL	Why be bound by just Twitter? Choose from multiple social media channels including Twitter, Instagram, Facebook, Google+ and Flickr for a massive social mash up!
PHOTO READY	Fully featured to include photos as well as text tweet - essential for the smartphone-armed event generation!
COST EFFECTIVE	Competitive rates often far cheaper than third party suppliers

EDITING AND PRODUCTION SERVICES

Why involve yet another company to produce your event broadcasting? Let EEH take care of your whole event broadcast – with a rich history in outside broadcast (including work with SKY and the BBC), we can provide a full event broadcast solution at competitive rates, whether you need one camera or a dozen.

With all our screens we offer a complete production and live editing service. We take care of the camera work, video editing and all aspects of post production.

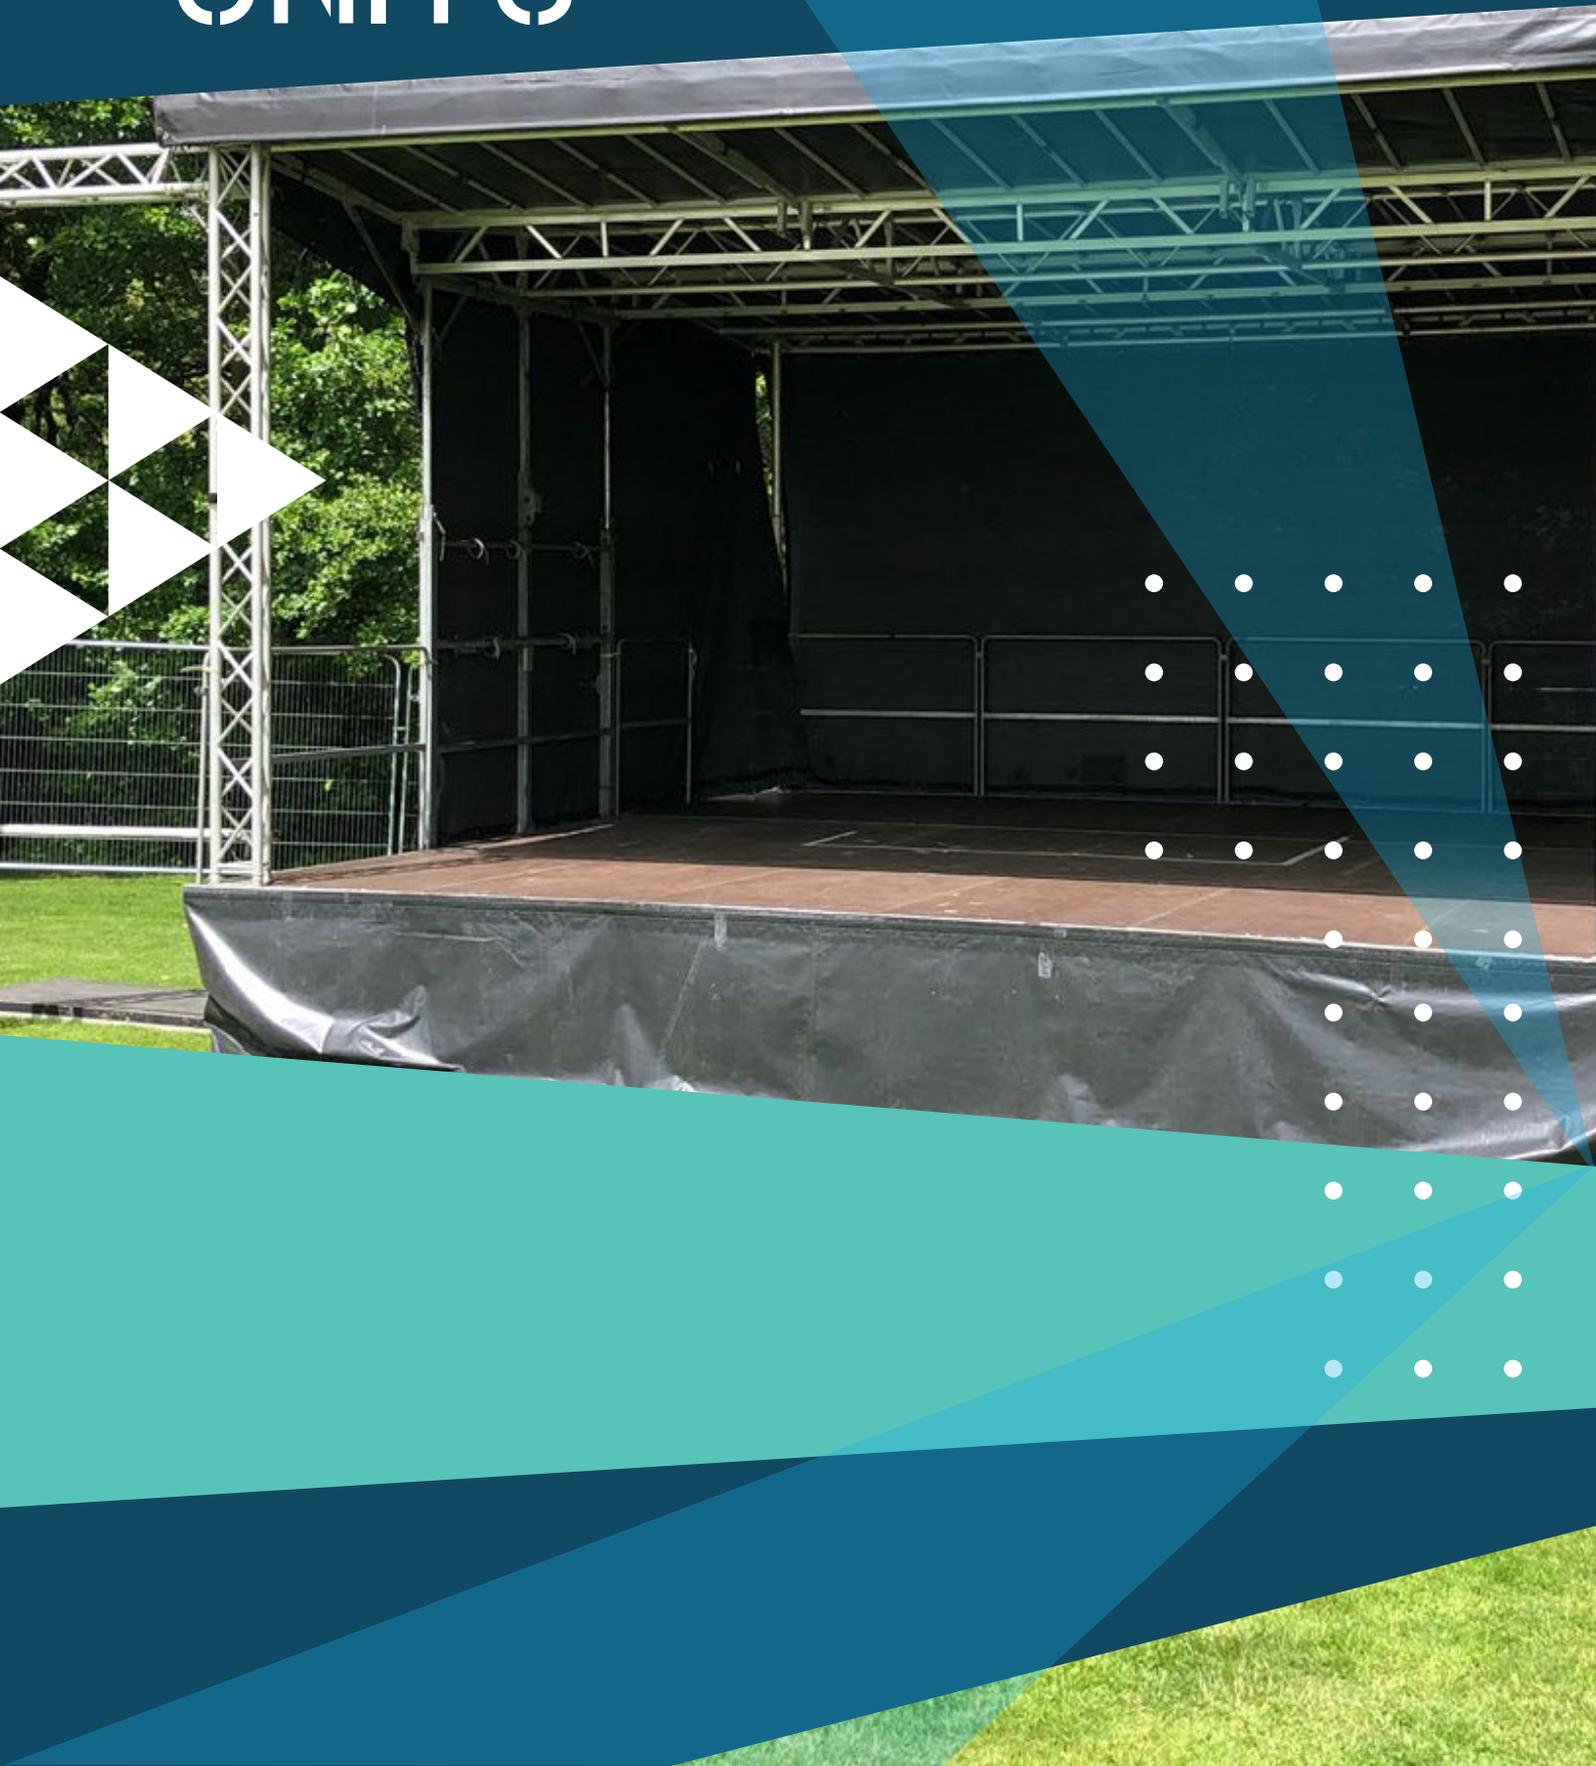

FEATURES

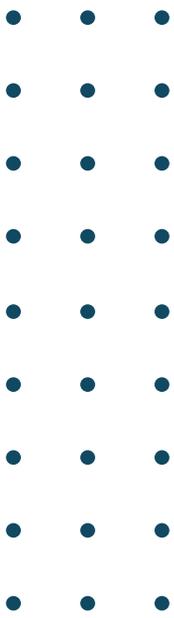

MULTI INPUT HD CAPABLE	Powerful and flexible production desk to play virtually anything you want, including up to 8 HD camera channels
FLEXIBLE MULTI PLAYBACK FACILITIES	Live events have a habit of throwing up unexpected changes, so we've focused on technology that can play practically anything you might throw at it!
CAMERA ENGINEERING	Available with fully-racked broadcast spec system cameras for consistency of presentation
SETUP TO SUIT YOUR EVENT	Flexible multi-view monitors to suit your event requirements
WIFI ENABLED	3G/4G network (where available)
RF CAMERAS	Available with HD or SD gigawave RF cameras for remote shooting
MULTI FORMAT BROADCAST SPECIFICATION RECORDING	Save your event in whatever format you want for later use

EXPERIENCED STAFF

We use professional camera and production equipment for reliability and superior image quality, however this is no good without the skills of an experienced operator. Our cameramen are experts in outdoor filming with 10 years experience, we have a full complement of staff at every skill level to suit the needs and budget of your event.

MOBILE STAGE UNITS

MOBILE STAGE UNITS

Event Equipment Hire offers a wide ranging of outdoor stage hire options in the UK. Our fleet of lightweight aluminium trailer mounted structures can access locations that smaller truck mounted units cannot. Offer unrivalled setup times, no other outdoor stage hire company has the equipment, vehicles experience and knowledge to deliver what we can.

Our full hire fleet of stages up to 61m (excluding PA wings) weighs less than 3500kg and can be manoeuvred off road by our diverse fleet of All Terrain Vehicles equipped with turf terrain tyres, winches, front and rear mounted towing hitches. We are equipped to do what our competitors cannot.

Each trailer stage unit is a compact piece of equipment, being fully functional in around one and a half hours from positioning.

Optional additional PA Wing trussing to each side of the stage allows you to fly more lighting and sound equipment, giving your event the WOW factor you desire.

Each stage can be personalised through branding for your event, displaying company logos of sponsors of general images in relation to the event.

STAGE UNITS

STAGE BRANDING

WHEN YOU CREATE AN EVENT, YOU CREATE A BRAND... SHOUT ABOUT IT!

Using the face of the stage units, the trussing and surfaces of the equipment is adaptable and easy to apply branding to.

Below is an idea of the many ways in which branding can be applied to the units

Adding branding to the backdrop of the stage creates a background focal point to support what is happening on stage. The dimensions will depend on the size of unit you have attending your event.

The PA Wings that attach to the side of the stage can also house branding. By branding this area, you can give the illusion of the stage being larger, as well as covering PA Equipment that is flying from the truss.

Dressing the stage with a stage skirt is a quick and easy way to get your brand across without taking away any performance space. It is also aids in hiding all of the flight cases and other equipment stored under the stage during the event

FAQs

DO I NEED TO SUPPLY MY OWN BRANDING?

Yes – Our customers are responsible for creating and supplying the branding. We can supply you with the necessary information to enable you to do this

WHO WILL FIT MY BRANDING?

Generally, it is the clients responsibility to attach the branding to the stage, however as we are a nice bunch, if it is onsite and ready whilst the stage is being built, we will be happy to help

DOES IT NEED TO BE MADE OF A SPECIFIC MATERIAL?

Yes – All of this information will be in the branding pack supplied by us. It is important that all of the instructions are followed and different materials effect the overall safety ratings of the stage unit. - If the branding isn't made of specified materials, we will refuse to allow it to be hung

CONTACT

Event Equipment Hire are based in Cleckheaton, West Yorkshire but serve the events industry across the UK & Europe with our high quality equipment. With a fleet of powerful vehicles driven by a dedicated trained team of staff, we pride ourselves on an efficient and personal service.
